About Ollie's Coffee Company

Crafting exceptional coffee experiences since 1987.

Our Story

What started as a passion project in a small downtown storefront has grown into a beloved coffee company serving thousands of customers every day. Our founder, Ollie Patterson, believed that great coffee should be accessible to everyone, and that belief continues to guide us today.

We source our beans from ethical, sustainable farms around the world, roast them in small batches right here in our city, and serve them with care at each of our locations. Every cup is a testament to our commitment to quality, community, and the art of coffee making.

Our Journey

1987

The Beginning

Ollie Patterson opens the first Ollie's Coffee Company in a small storefront in downtown, serving hand-roasted coffee to the local community.

1992

Expansion

Opens three more locations across the city, establishing our signature house blend that becomes a local favorite.

1998

Award Recognition

Our House Blend wins "Best Coffee in the Region" from Coffee Connoisseur Magazine, putting Ollie's on the national map.

2005

Going Green

Commits to 100% ethical sourcing and becomes certified Fair Trade, ensuring farmers receive fair compensation.

2012

Tech Innovation

Launches mobile ordering app and rewards program, making it easier than ever for customers to enjoy their favorite drinks.

2018

Community Focus

Establishes the Ollie's Foundation, donating 1% of all sales to local community programs and coffee-growing regions.

2026

Today

Operating 15+ locations with the same commitment to quality and community that started it all nearly 40 years ago.

Our Values

Quality First

We never compromise on the quality of our beans, equipment, or service. Every cup is crafted with care and expertise.

Community Driven

We're more than a coffee shop—we're a gathering place. Supporting our local community is at the heart of everything we do.

Sustainability

From ethical sourcing to eco-friendly packaging, we're committed to protecting our planet and supporting coffee farmers.
